Suspicion points to the camps of some of the rival candidates, according to Taft's friends, as the promoters of stories of trouble on the canal soon. They are suspicious that complaints will be aired in congress in the effort to give the Taft movement a black eye. Secretary Taft's transfer of the canal bureau force to the canal zone is made to economize. It is also said Major Goethals has insisted on it. Secretary Joseph B. Bishop of the Canal Commission will probably have to go to Panama or have his salary of \$10,000 a year cut off. The official reason given for the fulling off lately in excavation is that the rainy season is setting in.
